

WHY CHOOSE AG Series Transparent Cover

...?

Durable

Impact-resistant

Light-weight

The AG Series Transparent Cover is designed for environments that require high levels of waterproofing, dustproofing, and corrosion resistance. Made from ABS engineering plastic, it offers superior elasticity and impact resistance, ensuring long-term reliability for various equipment and applications.

Benefits:

- Provides excellent visibility and protection for internal components.
- Made from high-quality ABS plastic for superior strength.
- IP67 rated for protection against dust and water.

Applications:

Airports

Terminals

Subways
