

# WHY CHOOSE

# Cast Aluminum

...?

**Heavy-  
duty**

**IP68**

**Rustproof**

The Cast Aluminum Enclosure is designed to withstand demanding environments. Built with an aluminum body, it offers reliable protection against water, dust, and corrosion. Its rugged construction makes it ideal for heavy-duty electrical applications, ensuring the safety and longevity of sensitive equipment.

## **Benefits:**

- Offers IP68-rated protection against dust and water.
- Heavy-duty, rustproof aluminum ensures durability in tough environments.
- Reliable for industrial applications with long-lasting performance.

## **Applications:**

**Airports**

**Outdoor**
