

**WHY  
CHOOSE  
...?**

**Opaque  
Cover  
Plastic Latch**

**Heavy-  
duty**

**IP68**

**Rustproof**

The Opaque Cover Plastic Latch is designed for demanding environments, offering a sturdy, lightweight structure ideal for easy transport and use. It ensures superior protection against dust, water, and corrosion (IP67 rated), making it a reliable solution for safeguarding electrical components. The material is high-quality ABS engineering plastic, known for its impact resistance and long-lasting durability.

### **Benefits:**

- Provides exceptional waterproof and dustproof protection.
- Wear-resistant, long-lasting design with excellent insulation properties.
- Simple to carry, operate, and maintain in various conditions.

### **Applications:**

**Airports**

**Outdoor**

**industrial**
